Celebrates 175 of years in business

Algernon Sydney Field established his practice in 1834 at 42 Warwick Street where the firm continues to practice and has been going from strength to strength since. The firm is a stalwart of the Coventry and Warwickshire legal community offering stability and continuity as well as a first class modern service to both company and private clients.

Richard Armitage (the senior partner) said "We are proud to continue to offer the same first class service to our clients as given to them by our founders, Algernon Field and William Overell, all those years ago. The firm continues to offer a modern legal service, without abandoning the traditions of personal service which, sadly, many institutions have abandoned in this age of call centres and so-called supermarket law".
